

Unzip Ultimate

Description

Unzip Ultimate is designed to eliminate nested ZIP files from an archived folder. It crushes an entire compressed directory in one step, allowing you to access any of the files at any subfolder level without having to unzip again and again.

Compatibility

Switch 2021 Spring and higher

Incoming Jobs

Incoming job should be a .zip file. This ZIP file can contain nested ZIP files which will also be unzipped recursively. Any sublevel ZIP will be unzipped (e.g. ZIP in a ZIP in a ZIP...)

Name	Type	Modified
Input [1]	Folder	2021-10-15 10:27 AM
SD38021_Folder.zip	zip File	2021-10-15 10:27 AM

Name	Date Modified	Size	Kind
Fonts.zip	Today at 10:26 AM	1.7 MB	ZIP archive
Links.zip	Today at 10:27 AM	120.2 MB	ZIP archive
SD38021_Report.txt	Mar 25, 2019 at 5:13 PM	3 KB	Plain Text
SD38021_REVISSED.pdf	Jun 6, 2019 at 10:38 AM	285 KB	Adobe...cument
SD38021.ai	Jun 6, 2019 at 10:38 AM	39.2 MB	Adobe...cument

App Output

When the processing is finished, the output will receive a single folder with all of the contents of the unzipped jobs at every subfolder level.

Name	Type	Modified
Output [1]	Folder	2021-10-15 10:29 AM
SD38021_Folder	Folder	2021-10-15 10:29 AM
Links	Folder	2021-10-15 10:29 AM
Fonts	Folder	2021-10-15 10:29 AM
SD38021.ai	ai File	2021-10-15 10:29 AM
SD38021_REVISSED.pdf	pdf File	2021-10-15 10:29 AM
SD38021_Report.txt	txt File	2021-10-15 10:29 AM

Errors

Any incoming job which is not of .zip extension will return to the error connection.

Any incoming job unable to unzip (corrupt, too large) will return to the error connection.
