Success in Action:

Toronto-based custom label provider Stickerbeat turned to Significans Automation and its custom integration and deployment services to help scale operations and eliminate manual inefficiencies.

After implementing S-Launch:

- 90% fewer production errors
- Proofing time cut by 95%
- Throughput increased from 150 to 400 orders/day
- \$250,000+ in annual labor savings
- Sales growth from \$1.5M to \$7.3M in just three years

“

With our current setup, we could scale to \$20M without adding prepress staff.
