

Griffin 23.11

Release notes

This release includes the following changes:

Enfocus branding

As tilia Griffin will be further developed by Enfocus, the application got a new logo and an updated EULA. The name changed from tilia Griffin to Enfocus Griffin.

Additional languages

In addition to English, Griffin is now also available in Japanese, Italian, French, German and Spanish.

The language defaults to the language of the operating system. It's not possible to manually switch to another language.
